Un libro è un insieme di fogli, stampati oppure manoscritti, delle stesse dimensioni, rilegati insieme in un certo ordine e racchiusi da una copertina. Il libro è il veicolo più diffuso del sapere. L’insieme delle opere stampate, inclusi i libri, è detto letteratura. I libri sono pertanto opere letterarie. Nella biblioteconomia e scienza dell’informazione un libro è detto monografia, per

If the examiner feels that the claimant’s symptoms are not consistent with physical signs or test results, he should state that the physical examination or laboratory tests do not support the severity of disability suggested by the complaints. In this case, complaints should be recorded in the veteran’s own unprompted language within quotation marks, so that it will be clear that ...

TFCC injuries: How we treat?

Coding for surgical procedures performed on the shoulder is one of the most challenging areas for many orthopedic coders. In this presentation we will review the anatomy of the shoulder and put the pieces together to accurately code surgical procedures. We will incorporate both NCCI guidelines and CPT® changes, as well as discuss controversial procedures such as reverse ...

Chronic spinal pain is not a life-threatening condition but can cause profound disabilities in physical and psychologic health. With the increase in life expectancies, treatment of chronic spinal pain has become a major issue. In a study of the burden of diseases in the United States from 1990 to 2010, low back pain and neck pain ranked first and fourth, ...
